9. Mixed Use Complex

# RES PUBLICA

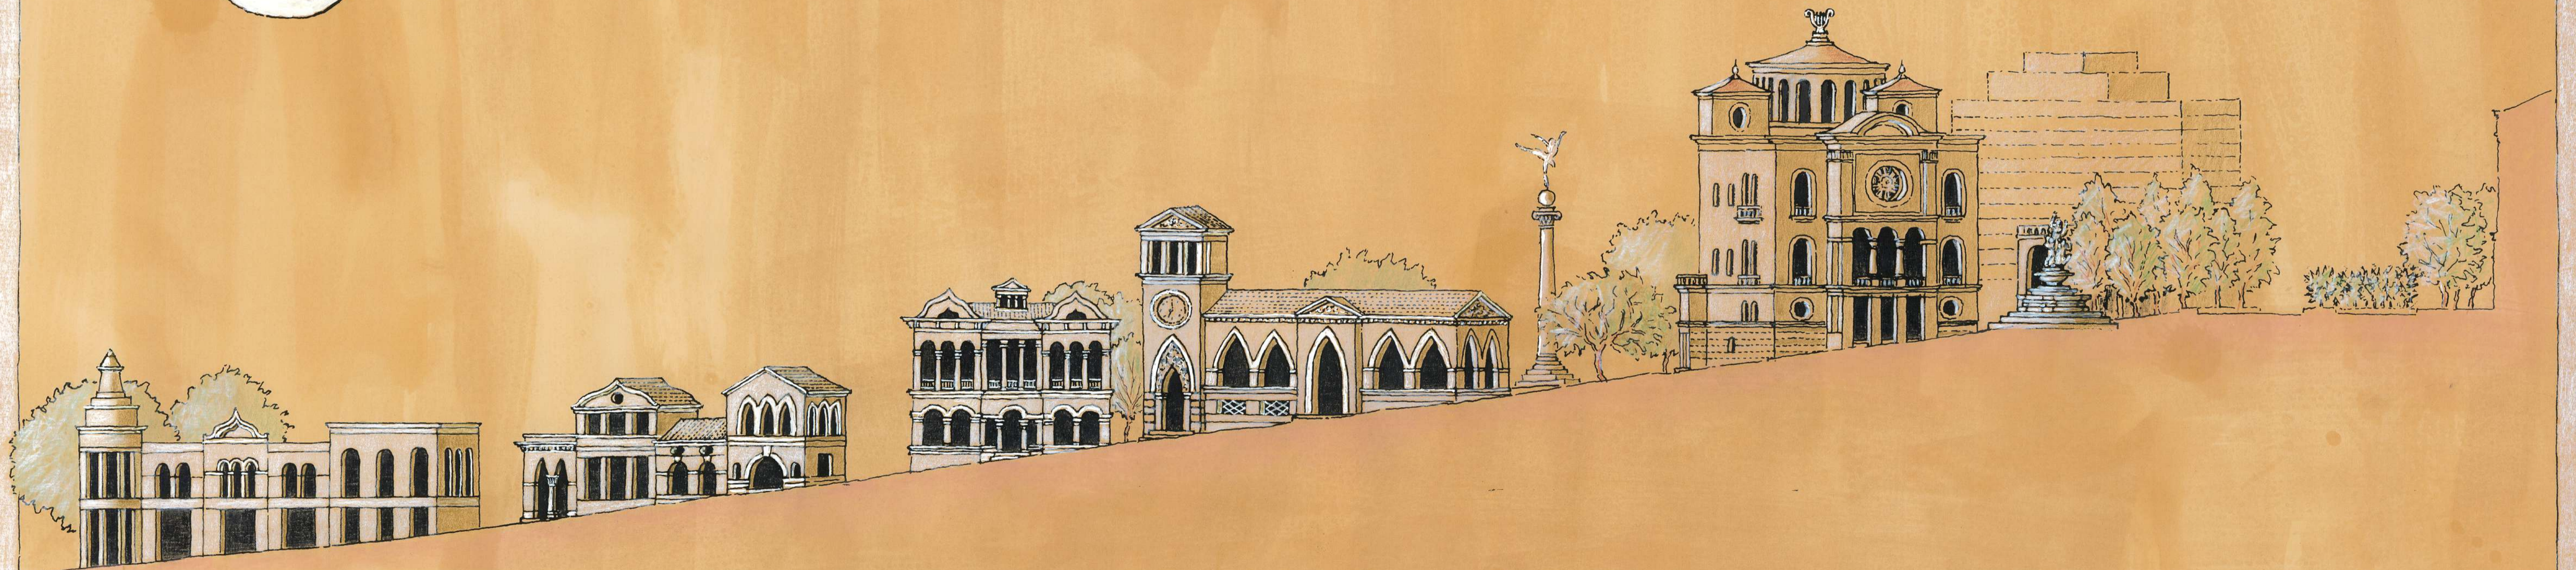

The world has never been a perfect place, but cities have always been ideals of freedom, opportunity and creativity. Their 'Res Publica' showcased the geometry of civic virtue and the perspectives of collective memory, as well as highlighting the proportions of civility and urbanity.

Our proposal is about reconstructing a beautiful & memorable civic realm, dedicated to music, dance and the conviviality of architecture, the city and the performing arts in the realm of an inspiring citizenship & civility.

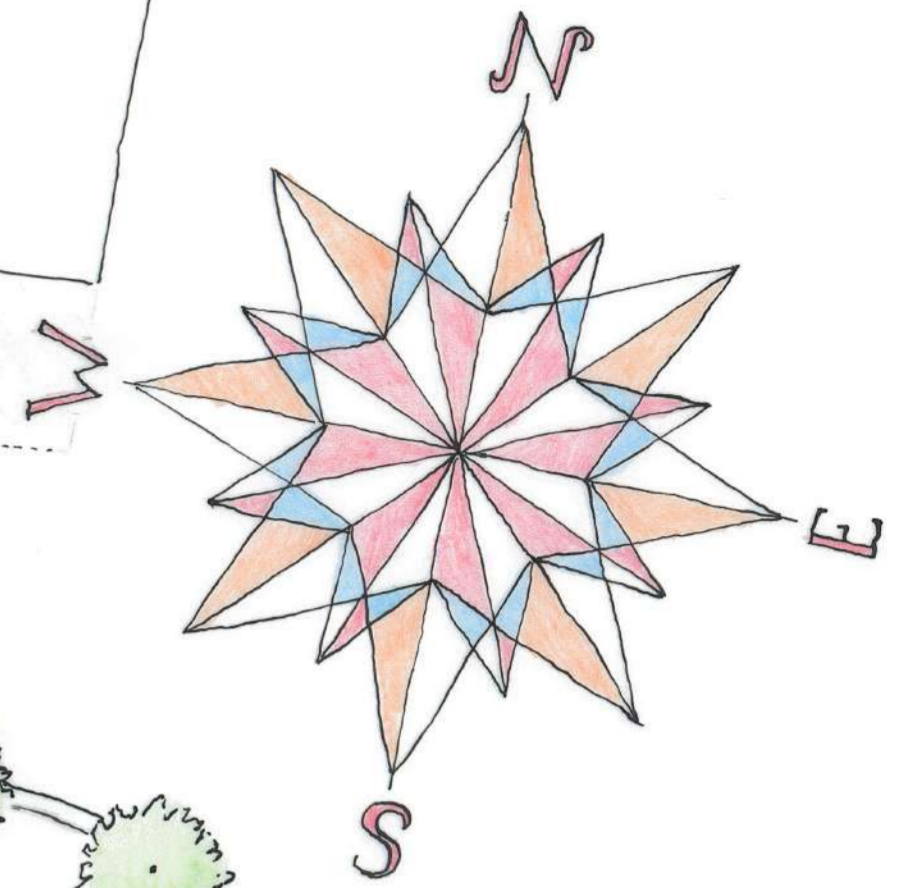

"Dance me to the End of Love"
